Heena Dhanani

React Js Developer

✉ heena.kathrotiya@outlook.com 📞 +1 813-853-3921 🌐 *www.linkedin.com* ◆ *github.com/iamheena*

Experienced IT professional with over 8+ years of expertise in analysis, design, implementation, and testing of systems. Proficient in JavaScript, React Js, Java, CSS3, HTML5, and more. Skilled in UI development, REST & SOAP web services, and database management. Adept at teamwork, communication, and delivering secure web applications.

Summary

- Proficient in JavaScript, React Js, HTML5, CSS3, and Bootstrap for dynamic web design.
- Created and consumed RESTful and SOAP web services for seamless data exchange.
- Worked with APIs like Fetch, Axios, Async/Await, Volley, and Retrofit.
- Extensive experience in the myFitness world and CVD mart Websites.
- Proficiently designed and deployed responsive UI using React concepts.
- Managed MongoDB databases for efficient data storage.
- Utilized Git for version control and deployment management.
- Enhanced front-end performance by optimizing UI components.

Experience

Client: Scaleteam Technologies Pvt.Ltd.
Role: React Js Developer

January - 2020 to August - 2023

- Collaborated on My Fitness World website, engaging with team members and maintaining client communication.
- Designed UI component architecture for a JavaScript library using React JS, HTML5, CSS3, and Bootstrap.
- Proficient in props drilling and well-versed in all React hooks components.
- Demonstrated expertise in managing React state and understanding React component lifecycle.
- Developed exclusively with Functional components.
- Led the design, development, and deployment of scalable front-end web applications using React.js and Node.js.
- Proficiently worked with MongoDB, focusing on data modeling and query optimization.
- Configured routing using React Router for various views and sub views.
- Contributed to dynamic web pages development for single-page applications using HTML5, CSS3, Bootstrap, JavaScript, jQuery, and React Js.
- Worked with various NPM packages.
- Implemented latest react-hook-form for streamlined validation implementation.
- Fetched server data using fetch, Async/Await, and axios API.
- Utilized GIT for effective version control management through push and pull.

Client: Quintech Fingain
Role: PHP/JAVA Developer
September - 2017 to December - 2019

- Proficient in HTML and frameworks like React Js, Node.JS, and Express.
- Skilled in SOAP and REST web service development.
- Highly flexible team player, collaborating effectively across roles.
- Proficiency in multiple object-oriented programming languages: JAVA, JavaScript, Python,, C++, and PHP.
- Skilled in unit testing and debugging, capable of resolving most program errors.
- Experienced with unit testing, release procedures, coding design, documentation protocol, and change management.
- Proficient in troubleshooting diverse environments, including production, for development issues.
- Participated in test case/plans review and contributed to migration contingency plans.
- Conducted system analysis and design.
- Well-versed in modern JavaScript fundamentals, with familiarity in modern JS Frameworks like React.
- Constructed efficient, testable, and reusable PHP modules.

Client: Savaj Infotech
Role : Android Developer
April - 2015 to August - 2017

- Developed and maintained high-performance Java code for diverse Android apps, including Photo Gallery, Barcode Scanner, and Google Map functionalities.
- Implemented best practices of Android UI design, resulting in intuitive and visually appealing user interfaces.
- Collaborated closely with back-end developers to construct and integrate RESTful APIs, ensuring seamless app functionality.
- Utilized open-source Android ecosystem and libraries for efficient development, improving app features.
- Achieved app responsiveness and efficiency by optimizing UI rendering and networking processes.
- Managed codebase using Git and leveraged Android Studio for streamlined development.
- Employed Firebase for authentication, real-time data sync, and analytics integration.
- Demonstrated end-to-end app development expertise, from conceptualization to successful app store publication.
- Collaborate with a team of experienced developers.
- Work on bug fixing and improving application performance.

Education

Master of Science in Information Technology and Computer Application(MSC.IT & CA)   *March - 2014*
- Saurashtra University - India

Bachelor of Computer Application(BCA)   *March - 2012*
- Saurashtra University - India

Skills

- JAVASCRIPT
- REACT JS
- REDUX
- TYPESCRIPT

- HTML/HTML5
- CSS3
- BOOTSTRAP
- MONGODB

- GIT
- REST
- SOAP
- MYSQL/SQL
